

Springboard certifies that

Gaurav Gupta

has successfully completed

Data Science Career Track

A 600-hour online course that covers Machine Learning and Deep Learning in Python. Gaurav participated in weekly live 1:1 mentoring sessions with an industry-experienced data scientist, and successfully completed two final projects, "Diagnosis of breast cancer - a data science approach" and "Arrhythmia diagnosis and classification using ECG", at least one using Deep Learning techniques, that were reviewed by an independent industry expert.

Mini-Projects Completed

Three Exploratory Data Analysis projects
SQL queries
Acquiring data via APIs
Linear & Logistic Regression
Naive Bayes
Customer segmentation using clustering
MapReduce with Spark

Topics Covered

Programming in Python
Software engineering principles
Data Wrangling
Inferential Statistics
Machine Learning
Data at Scale
Data Storytelling
Deep Learning
